

Project Engineer

Location: Springfield, IL

Salary: \$65,000 – \$80,000

Overview

At O'Shea Builders, our passion for building comes from within. Whether it's constructing spaces perfectly suited for healing, teaching, or serving customers, we are driven to help our clients thrive. But that only happens because we are committed first to building an extraordinary team of talented people. Working at O'Shea means that you are part of a highly skilled team that is deeply committed to professional excellence, client service, and a whole lot of fun. If you are driven to create exceptional construction experiences, we have a fantastic opportunity for you that includes challenging work in a great environment.

We are seeking a well-organized, friendly, and motivated Project Engineer to join our team. You will assist the Project Manager and the Superintendent on various types of commercial construction projects, including General Contracting, Construction Management, Design Build, Civil, and Building Maintenance Services.

What You'll Do

- Guardian of "The O'Shea Way" Culture, Processes, and Values always.
- Support the Project Manager and Superintendent(s) in building effective relationships with team members, internal and external customers, suppliers, and subcontractors.
- Review project plans and proposals, develop project objectives, and identify project responsibilities by determining the phases and elements of the project, calculating time frames, and sequencing the stages of the project.
- Determine project specifications, customer requirements, cost estimates and performance standards.
- Schedule and coordinate of contractors.
- Conduct initial physical layout and periodic site audits assuring adherence to project specifications and quality standards.
- Manage trade personnel.
- Prepare status reports and regularly monitor budgets, contractors, and schedules.
- Allocate project resources appropriately; review and distributing RFIs and change orders.
- Keep an accurate record and electronic database of all elements of the projects.
- Present procedures, rules, and regulations to those involved in the project, maintaining a safe, clean, and productive environment through enforcing procedures.
- Comply with state and federal regulations.

What We're looking for in You

- Continuous learner
